Solutions For Entertainment

Terralec Launch the New Cobra Cables

Terralec are pleased to announce the arrival of the new "Cobra Cable Range". Cobra Cables are a welcomed addition to the fast growing Cobra brand, which already offers flight cases, LED stage lighting and a range of high performance speakers.

As with all of the products in the Cobra brand, the cables have been specifically designed, manufactured and tested to Terralecs high technical specification. Ensuring the ultimate in product quality, usability and of course price!

The high quality specification of the Cobra cables is sure to be what sets them apart from other brands on the market. All cables within the range are manufactured from ultra-high quality cable, along with all metal high quality fittings. All of which ensure enhanced performance, reliability and usability. In tough economic times, the reasonable price for such high spec cables is sure to be a welcomed factor too!

The Cobra cables include audio leads, speaker cables, DMX leads and stage snakes, offering a complete range for the stage, DJ and entertainment industry.

As both the Cobra brand and its popularity grow, new and exciting products are consistently being added to the range. Recent months have also seen the addition of the Cobra control products. These include the CONTROL4 and CONTROL8 DMX controllers, primarily designed for controlling LED Par Cans. Also the larger CONTROL24, which is a 48 channel controller, suitable for any DMX lighting fixture. All offer ease of use with multiple control functions.
