

### TECHNICAL PARAMETER

|                              |                |
|------------------------------|----------------|
| External Diameter            | 90mm           |
| Frequency                    | 1000 ~ 23kHz   |
| Impedance                    | 8 Ohms         |
| Power RMS                    | 60 Watts       |
| Voice Coil Size              | 34.4mm         |
| Voice Coil Material          | CCAW           |
| Sensitivity                  | 103db          |
| Dimensions of Magnetic Steel | 90 x 45 x 15mm |
| Height                       | 70mm           |
